### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Munch on 11/22/05.

2. The application has been amended as follows:

In claim 1, line 4, "based on the reference clock signal" has been deleted,  
lines 5-6, "the sampling clock signal generated" has been replaced by -- the pulse generated --.

### **REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance: Claims 1-5, 7-10, 12-17 and 19-23 are allowed.

Claims 1-5, 7 and 21 are allowed because the prior art of record fails to disclose or suggest the inclusion of a step of generating the sampling clock signal by creating a pulse to generate a clock signal and an inverted clock signal, and the pulse is generated based on a divided reference clock signal as recited in claim 1. The inclusion of the recited limitation

defines patentability over the prior art of record because it defines a distinguished structure of the sampling clock signal generating circuit which is not taught by the prior art of record, alone or in combination.

Claims 8-10, 12-17, 19-20 and 22-23 are allowed for the reasons noted in the previous Office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
